UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

Subject: Administrative Changes in USIB Paper Designations

Reference: USIB-CC-5./113, 15 March 1961

1. At its 96th Meeting on 15 March 1961 the COMINT Committee requested that the Secretariat study ways and means to simplify filing and to improve and to expedite research relating to "C" and "CC" series papers. The Chairman, ELINT Committee agreed that there was a similar requirement with respect to "E" and "EE" series papers.

2. In complying with these requests the Secretariat has determined that improvement would result from the adoption of uniform subject numbers in all series papers, and from the establishment of several new file designations to more clearly indicate subject associations.

3. In order to accomplish this, the following changes in "C" series papers have been made:

a. USIB-C-9.1/ "WARNING SYSTEMS" is re-designated USIB-C-9.5/ "WARNING SYSTEMS" with consecutive numbers remaining the same. (See Inclosure for new designations)

b. The subject of USIB-C-9.3/ series papers is changed from "INTELLIGENCE REQUIREMENTS" to "COMINT OBJECTIVES AND REQUIREMENTS LIST".

25X1X7

d. The subject of USIB-C-13.2/ series papers is changed from "REQUEST FOR CLEARANCE AND/OR INDOCTRINATION" to "INDOCTRINATION".

e. Certain papers currently filed under "USIB-CC-5./ "ADMINISTRATION" are re-designated to more clearly indicate their subject association. (See Inclosure for new designations)

4. To assist Members in re-arranging their files, the Secretariat is providing "Cross Reference Sheets" to replace the re-designated papers in the USIB-C-5./ series. The Secretariat plans to publish a "C" Series Index in the immediate future.
